An opportunity to discover the Good In Our Neighborhood

Discover the good happening right here in Blair County at The Good In Our Neighborhood, a community-focused event designed to bring residents together with local non-profit organizations and resources that make a difference every day.

This engaging, family-friendly event will be held Thursday, March 26, from 10 a.m. to 2 p.m., at the Station Medical Center in the common mall area. Enter through the Keystone entrance (door #8). There is no cost to attend.

This unique experience will offer attendees the opportunity to meet and connect with a wide variety of non-profits serving individuals, families, and businesses throughout our community. Informational tables will highlight programs, services, and initiatives available in Blair County, making it easy to learn how these organizations support our neighbors and strengthen our region.

In addition to learning about local resources, attendees can explore meaningful ways to get involved through volunteering, advocacy, and community support with organizations that align with their interests and passions. Whether you're looking to give back, find support, or simply learn more about what's available in our area, this event has something for everyone.

Community members are encouraged to attend and enjoy activities for all ages, including a visit from the Easter Bunny from 11:00 to 1:00 ready for you to take some Easter photos, delicious food from a local food truck, and free blood pressure screenings provided by UPMC.

Come connect with your neighbors, support local causes, and celebrate the good happening all around you. We look forward to seeing you there!

Ready to lead?

LBC Adult now accepting applications

The Blair County Chamber's Leadership Blair County (LBC) adult program is now accepting applications for the 2027 class, and is looking for individuals ready to grow as servant leaders in our community.

This premier leadership program runs from September through June, with full-day sessions held once a month. Throughout the program year, participants organically develop their leadership skills while gaining a deeper understanding of the communities where they live and work. Each session highlights a different focus area, including Regional Appreciation, History & Heritage, Local Government, Human Services, Diversity, Economic Development, Justice, and more.

In addition to monthly sessions, each class collaborates on a meaningful project that directly benefits a local nonprofit or community organization. Throughout the experience LBC alum have forged new friendships and pro-

fessional networks that they continue to enjoy far beyond graduation.

Now in its 31st year, Leadership Blair County continues to receive strong support from area businesses that recognize the value of investing in servant leaders within their organizations and throughout Blair County.

Apply today through the Chamber website at blairchamber.com. For more information about the program, contact the Chamber's Program Manager Megan Rossman at mrossman@blairchamber.com.
